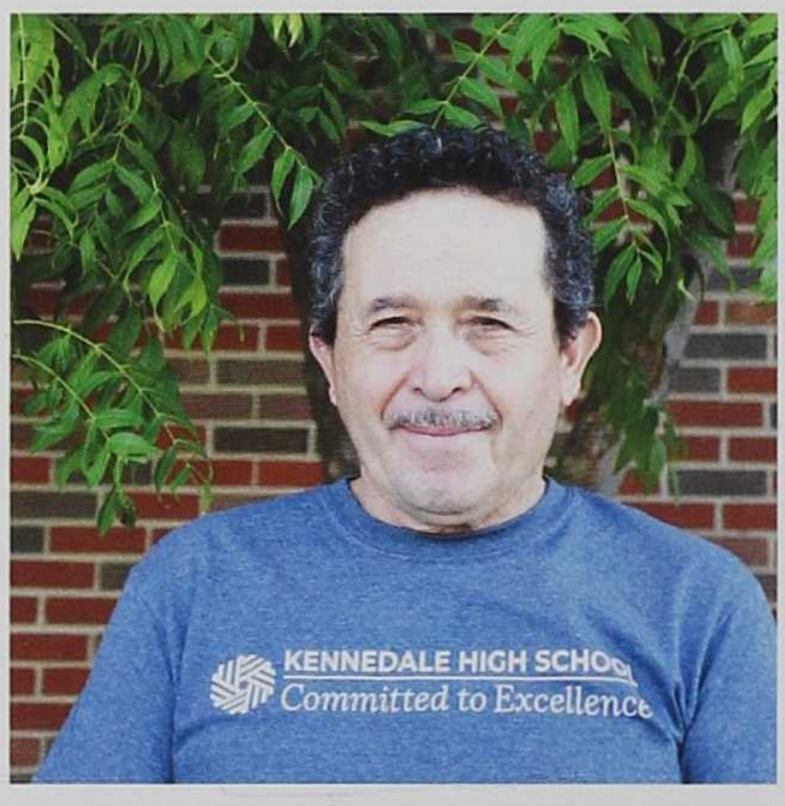
Embracing Unsung Heroes

KHS head athletic trainer, Coach J, goes above and beyond to help out KHS athletes in any way she can. You will always see her with a big smile on her face because she loves what she does and treats everyone with kindness. Although she has two KHS athletes of her own, she cares for all KHS athletes as she would her own children always making time for any need. She is always the first one you see running out on the field or court to help an injured athlete. She wants her athletes back to practice and playing their game as soon as possible. Her hard work, caring heart, and encouraging words never go unnoticed. Every student, staff member and community member appreciate her hard work, dedication and determination to make our athletes as healthy mentally and physically as possible.



KHS Head Custodian Rafael, his wife Paulina and his custodial staff keep our campus clean, organized, and safe. They work long hours day and night to ensure our building is prepared for each new day. Rafael promotes a friendly smile that is seen throughout the custodial staff as they work. The caring nature and dedication of his staff does not go unnoticed. We appreciate this amazing staff who takes care of us the most. Rafael's wife, Paulina, works hard to keep our Media Center and PAC clean. Her warm smile and "Hello friend, how are you today?" greetings give everyone and extra pep to their step. This is a massive "THANK YOU" to our custodial staff.

KHS Foreign Language Department Head, Maestra Stephens, is one of the most amazing teachers on campus. Throughout 17 years of dedication, she has developed and engaging Spanish course her students do not forget. With a big beautiful smile and unforgettable kindness, Maestra steps up to offer a helping hand to anyone in need. She makes motivation contagious and encourages others to step up and overcome obstacles never thought possible. Her Spanish Club is always looking for ways to make others feel appreciated and have spent the last 12 years showing our custodial staff this appreciation by providing their Thanksgiving Family Meal. Her list of accomplishments is a mile long, the most recent being a Semifinalist for the HEB Excellence in Education Award. She is one of the first to arrive and last to leave every day and is involved in so many activities. KHS definitely feels the love and dedication she commits every single day. Maestra Stephens says, "I try to be involved in what I can because it is my calling to help others!"

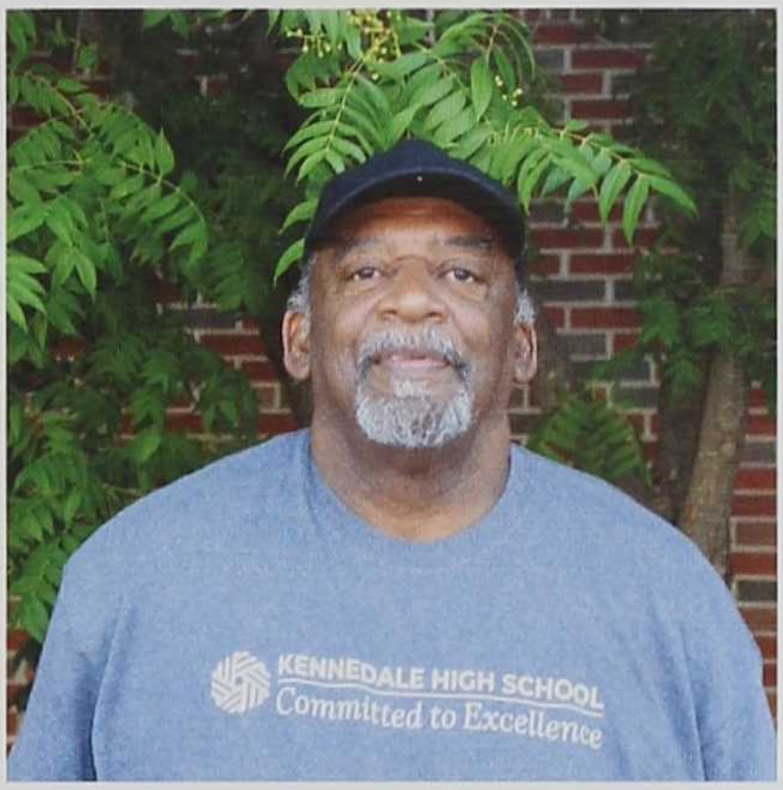
Health Science teacher, Mr. Burke is always willing to assist anyone in any way he can. He has been teaching at the school for 16 years and has been working in the medical field for 34 years. He is also a Texas Licensed Athletic Trainer, a National and Texas Emergency Medical Technician, and a Texas Emergency Medical Technician Instructor. He has taken on being that organizer for the Blood Drive so we can continue to help save lives. Without him, we would not have all of the hands-on health science courses that let students go to different departments at the hospital each week. There would also not be the opportunity for students in his Practicum II class to earn their CNA or EMT licenses. He enjoys seeing many of his students go on to begin their careers in medical and even veterinary sciences.

CCMR and CTE Administrator, Mrs. Newcomer, is always helping to coordinate certain things that will help prepare students for college and their careers later on. She has built the CTE Department and is always assisting students when it comes to military exams, college exams, or trade school exams. With the help of the CTE Department, students can find their interests and learn more about certain career paths. Her experience in guiding students to make good choices helps them get into the college programs they are interested in. She keeps her students informed and focused on what they need to do to write their next chapter in life. Mrs. Newcomer seems to effortlessly guide her students along a path to achieving their big dreams.



KHS Head Security Guard, Mr. Maddox, has been working at KHS for 10 years. He loves working with kids! Besides working with students at the high school, he also coaches at a boxing club in South Dallas. He started boxing when he was 5, has been a boxing coach for 27 years, and is a two time National Champion for the Middleweight Division. He has even coached an Olympian and current professional boxer. He glows when he talks about all of his work with youth. He is also a proud husband and father to three grown children who have made him one incredible grandfather. While performing his duties as a security guard for Kennedale, he also organized an after school boxing program for students at KHS for about 5 years under the ACE Progam. He says "I love working with kids and going face to face with them."

Early graduate Nevaeh Johnson has played on the KHS Varsity Soccer Team since she was a freshman. Her hard work is paying off too! She is not only graduating early,she is also beginning her adventurous ride to Louisiana to help lead LSU to Soccer Excellence!

Nevaeh's soccer career began with a simple kick in her backyard at the ripe old age of 3. Landing her a position on a team at 4. It was not hard to see that she was a born soccer player filled with natural born talent. She tried other sports, but the raw talent and love wasn't there. This was when she learned that her true love was the great worldwide sport of soccer. But she also knows that she would not have gotten as far as she has without intrinsic motivation that came from the love and support she has received from family, friends, coaches and teammates.

When it came to signing her LSU Contract, that love and support was obvious. Tears of happiness were shared, speeches of pride were given, hugs of pure love were shared and smiles were everywhere. This all resulted in one unforgettable memory for all to share, and to carry forward into watching her blossoming career take shape. All of her biggest fans will be supporting and cheering her on this spring; some will be in person and others will be watching intensely from home, watching greatness from this early graduate to the big college soccer fields.

Nevaeh Johnson

Her words that she leaves behind with us are to never give up and to keep your head held high. That life will throw you challenges and with some hard work, you will achieve those goals in the end. Making every tear, drip of sweat and injury all worth it in the end. Never give up! Even after your dreams are achieved, make new dreams and keep going. There is always more you can do.

GEAUX TIGERS!!!

Good Luck on the LSU Soccer Fields, and we can't wait to watch!

Ajay Greenwood

Ajay has spent his entire 13 year education here in KISD and began his experience at R.F Patterson. As time passed and he moved through each grade, he quickly found band as soon as possible. His love of music has been nurtured since 6th grade, this is where he began to work towards becoming an accomplished musician with his trumpet. His trusty trumpet is where he demonstrated a cool Jazz tone and this turned into his love and enjoyment in also serving within the Jazz ensemble here at KHS.

He also found a love in outdoors and has participated in UIL archery events and found a love to serve along the way. Outside of school he has had leadership opportunities in 4H. He has also been named a Cook Children's Ambassador and has done several mission trips within his church. He has spent a ton of time working to make tomorrow a better place for all.

Some of his activities in 4H has allowed him to serve the community through food drives, donations for the Kennedale Fire Department and Mission Arlington. He has achieved several awards through Tarrant County 4H including Reserve Champion in leather work, Letterman and 4 Star Shooting Sports award.

His work as a Cook's Patient Ambassador gave him the opportunity to represent children with chronic health conditions within our community and help secure sponsors for the foundation. One of his most memorable events was his interview with KSCS radio celebrities during the annual radiothon. While he is modest about his strength, he also relishes these moments with pride and purpose.

As he moves on to college in the Fall, he knows that the friendships, skills and opportunities he has developed along the years will help in the next journey. We know he will go to great places as he is also the newest recipient of the Tarrant Agricultural Corporation Scholarship.

18-year old Jesse Rampy who plays for the club F.C. Dallas is on his way to Arkansas. This incredible goalkeeper has made a name for himself and has helped move his club up in the rankings. They are currently ranked 5th in north Texas, 7th in their region and 23rd in the nation. There is no denying his passion and drive to compete at the highest level. He is a strong leader for F.C. Dallas with his goals against average being less than one a game.

Jesse has had a soccer ball at his feet since before the day he could walk. Since then his love for the game grows every day. He has been a Wildcat since kindergarten and even played on the J.V. team his freshman year and then on varsity during his sophomore year. His goals are to achieve playing for a professional team after college, which has been a dream of his since the day he can remember. All of this hard work has been in the making, and to end his senior year, he can not think of a better send off than to be able to compete in the Dallas Cup and make it to Nationals.

He is enjoying his final club season, but is also beyond excited and ready to begin playing for the University of Arkansas-Rich Mountain as a D1 collegiate

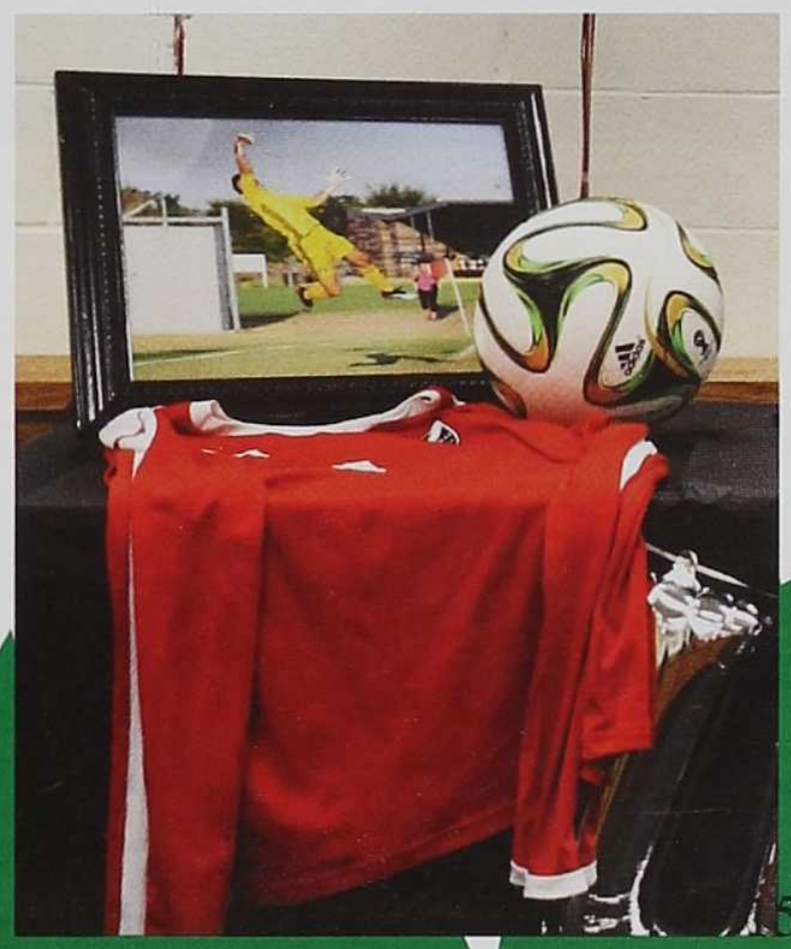
goalkeeper. We all look forward to seeing him reach his dreams and can not wait to see him on TV in his professional keeper jersey. He has even offered to hook special people up with a signed jersey when he gets signed to his first professional team.

Good Luck and Enjoy College Jesse!!!



Allie Murphy

"To my junior scientists, don't be afraid to get involved. It is so worth it. Don't be afraid of losing. Running for student leadership can be intimidating, but go for it. And if you have lost an election, don't let that deter you from trying again. I have lost multiple elections; but I didn't let that stop me from trying again. Overcome the fear of failure."

Madison Fail

"To my junior classmates, I want you to know that your voice matters. If you have an issue or interest that you feel passionate about organize, organize, organize. There are like minded people who will band with you. And support is a necessary part of activism, justice, service, etc. For leadership, the best advice I can give is that being a leader does not just mean you make big decisions. Being a leader means supporting and empowering your team so that they can feel confident in their capabilities. Highlight people's strengths, and you won't need to do all of the work by yourself. Change is not something that is set in stone. It is something we all must work for and maintain every single day."

Student Leaders

Seniors Allie Murphy and Madison Fail are student leaders who have made a great impact on the Kennedale community. They have truly defined what it means to embrace your high school years and leave something behind for the younger classes to enjoy for years to come.

During her high school career, Allie has been a member of the Kennedale marching band, student council president, and the Key Club vice president. Participating in many community events, such as planning food drives for local homeless shelters or when helping to make "Commit-to-Graduate" awards to promote finishing school within our community. She is also a member of the PAL program, serving as a mentor to younger students in our district.

Madison created the first Kennedale DIversity club this year as a way to reach out to others who don't always feel that they have a place in high school. Her club has helped others know that it is a great thing to feel and be different; allowing them to feel a sense of belonging and appreciation for their individual uniquenesses. She also holds the position of president for the Interact club; which is a volunteering and community service based organization here on campus. This year they felt the need to help students feel safe, with social distancing in mind, they decided to buy and build several picnic tables for students to enjoy and relax during lunch. This outside eating area has added to the beautification of our campus.

Both of these young ladies have demonstrated not only leadership skills, but they also have the knowledge of why giving back to your community is so important. Embracing their communities, leaving a useful and appreciated fingerprint behind.

Homecoming

The long heritage of the Kennedale Wildcats is in the name that students and faculty members proudly represent. They will not let anything bring them down, even during the crazy 2020 year with a Global Pandemic. The Kennedale community came together to remember those fighting or to those who have lost their battle with Breast Cancer. With the U.S. Breast Cancer Statistics stating, that 1 in every 8 females will develop some form of this terrible disease in their lifetime. Sadly, more than 40,000 women will lose their battle every year; leaving behind families and loved ones to tell their stories. Our Wildcats could not have been stronger,supporting"Pink Out Night" like no other. The party did not stop due to large crowd restrictions, it did not stop our Drill Team or Cheerleaders from getting the team pumped up either. The spirit was incredible and breathtaking on October 16th, when the Kennedale Wildcats took on Benbrook Bobcats. Aidan Birr scored the game winning field goal in overtime. The final score was 16 to 13. Way to Go Kennedale Wildcats!!! Let us not forget the Lady Kats, who also won their volleyball game; defeating Uplift North Hills! Two wins in one incredible night!!!

And now for our 2020-2021 Homecoming Court.

Band Member QnA

Jasmine Thomas (Flute)

In what way does your section differ from the others?

I feel like my section practices more and tries harder to be perfect.

On a scale of 1 to 10, how fun would you say band is?

9, because it's a lot of hard work, but it pays off.

Madison Renz (Colorguard)

How does your section differ from the rest of the band?

We spin flags, rifles, and sabres, and everybody else plays an instrument. Pretty big difference.

On a scale of 1 to 10, how fun would you say band is?

10, because there's a lot of great people in band, and everybody's really nice, and I like the friendly competition between everyone, and all the funny jokes.

What would you say your favorite memory from band is?

Going to the parties Lexi (colorguard captain) throws.

She throws these get-togethers for the holidays where we hang out and watch movies.

For those in our marching band, they have had an interesting year. Things have been different, but the hard work and unforgettable memories are still very much alive. Music makes everything better, and add some fancy uniforms and footwork; it is not only music to the ear, but breathtaking to watch. We are proud to say that competition after competition, they have placed and have gone on the road a few times too. Those miles have added up, but the cities have been seen and started in Springtown, Texas. State competitions in San Antonio, Texas will be their last stop this year. Placing 9th in the State!!!

Kennedale Band

The road to state was a long one, as the marching season was led into December. Nonetheless, our Kennedale Wildcat Band pushed through, and played an incredible show. Everything they've achieved has been done through hard work, and a passion for music and performing. With all the twists and turns throughout the year, their determination to keep going grew, and they got the job done.

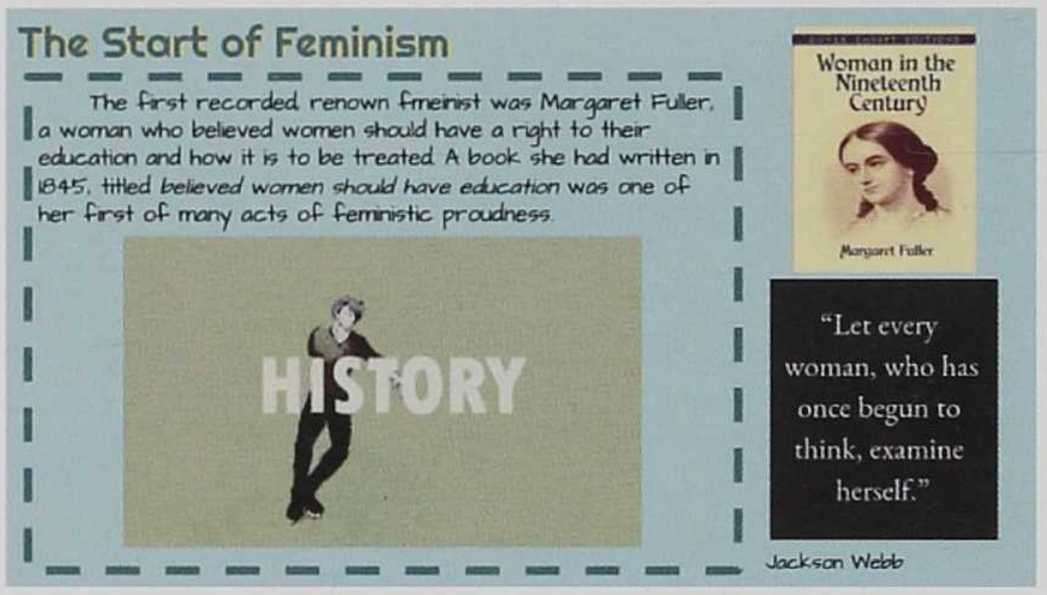
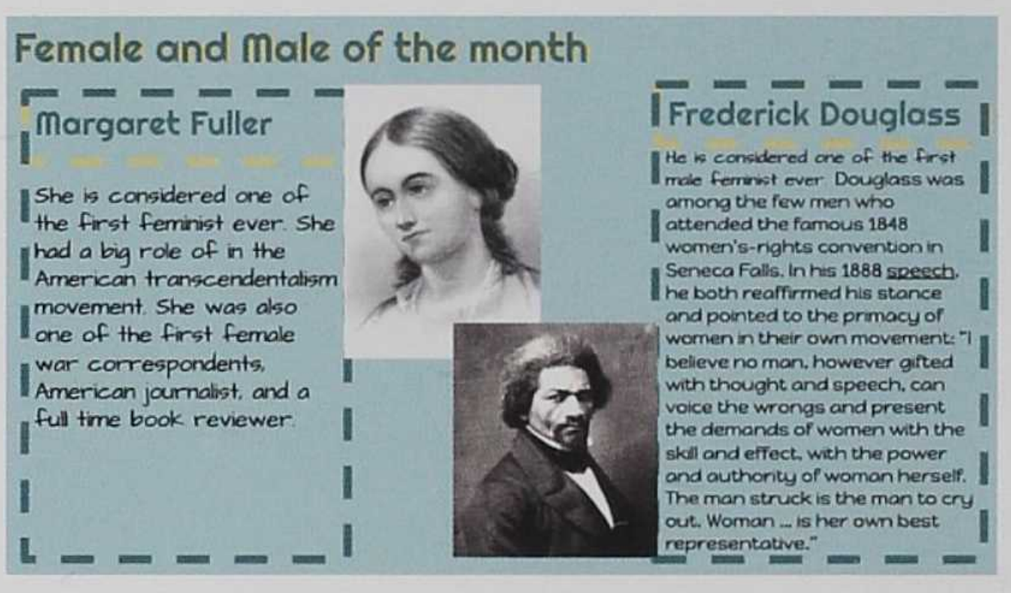
The Future is Female

Embracing their inner feminist

The Future is Female club also known as TFF club, is a club where the issues of womens rights and other issues are talked about. Members can be/are both male and females, they meet every other Friday after school, both virtual or in person. Their president, Alyssa Pena, started the club because she wanted to let females (or males) know that they are not alone in the fight for their gender, a lot of females get talked down on or are expected to live up to the stereotypes that are placed on them, this club is here to prove that is not true. (Talk to Mrs. Cullum, room 603, for more details.)"I decided to sponsor this club because Alyssa Pena asked me.Also because it seemed like an idea I had not heard before, I thought it was important to give people a voice and a time to talk about concerns and frustrations and ideas to move forward in the 21st century. ",says sponsor Carolyn Cullum. The people in this club have a chance to talk about their experiences, or stereotypes they have faced. This club still has a long way to go, but from dress code stereotypes to women (and men!) from the past they have worked up a lot. The club is designed for everybody and anybody to come and either enjoy the topic, or stick around and learn more. This club certainly has fun with their subject they want to make sure that everyone can be included and have fun from their perspectives as well.

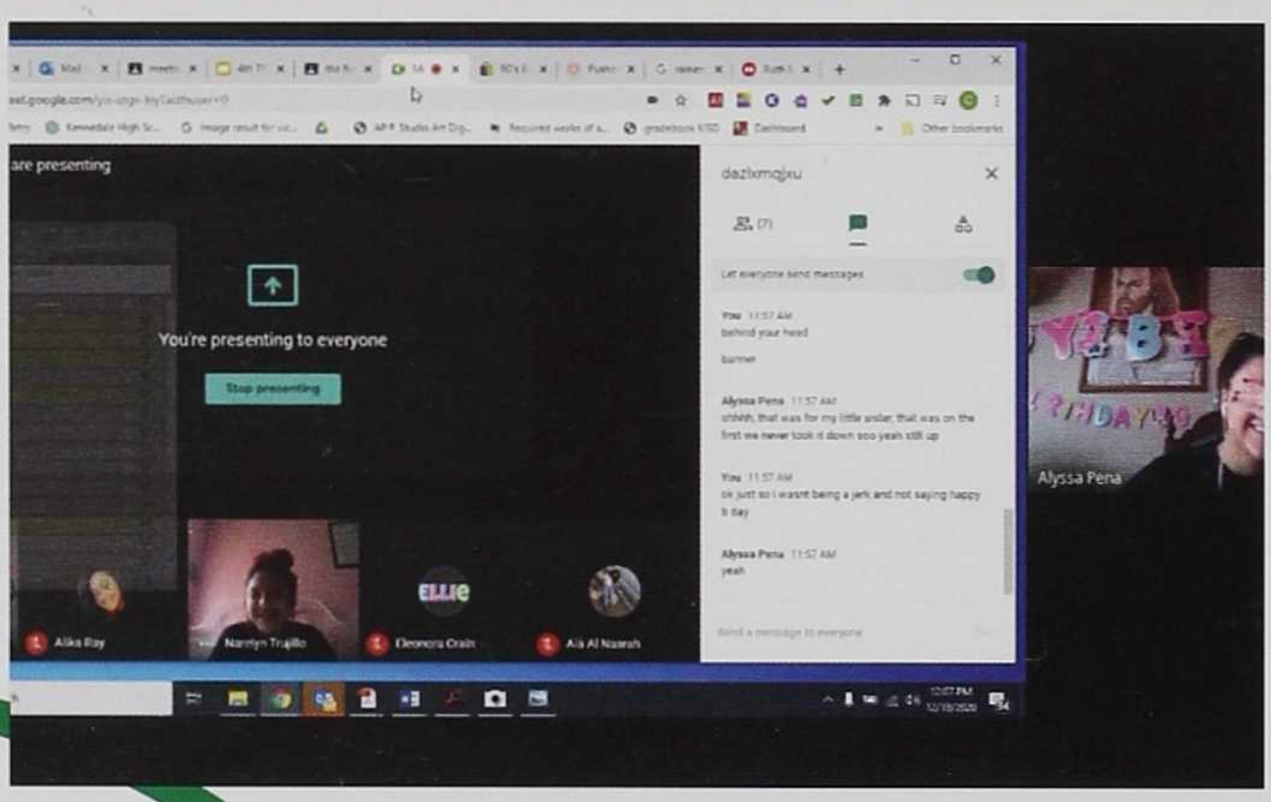


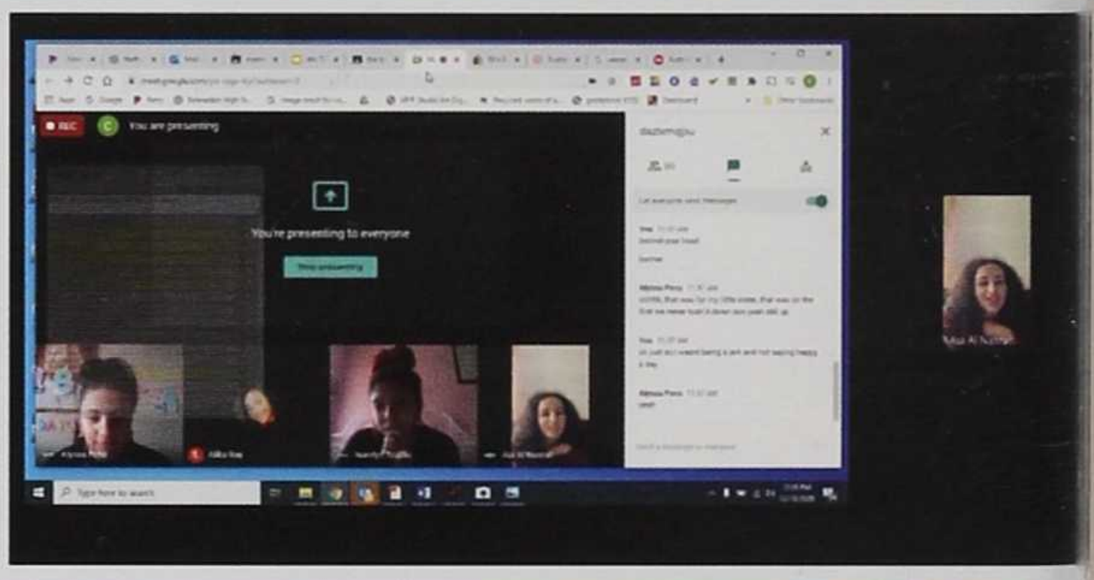
The Start of Feminism
The first recorded renown fmeinist was Margaret Fuller, a woman who believed women should have a right to their education and how it is to be treated. A book she had written in 1845, titled believed women should have education was one of her first of many acts of feministic proudness.
HISTORY
Woman in the Nineteenth Century
Margaret Fuller
"Let every woman, who has once begun to think, examine herself."
Jackson Webb



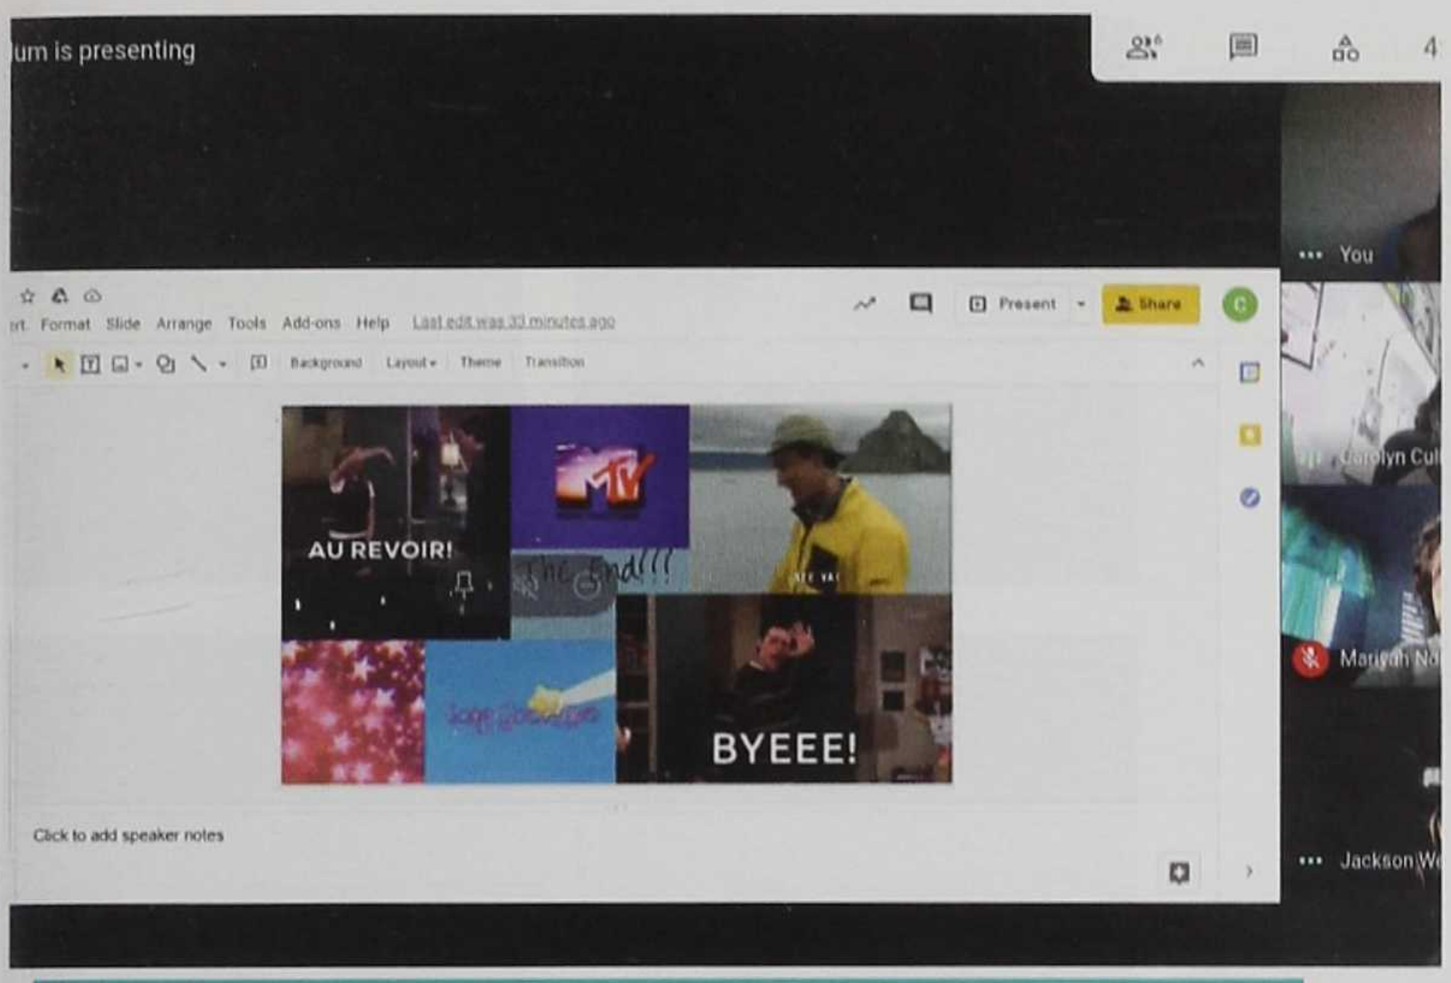
Female and Male of the month
Margaret Fuller
She is considered one of the first feminist ever. She had a big role of in the American transcendentalism movement. She was also one of the first female war correspondents, American journalist, and a full time book reviewer.
Frederick Douglass
He is considered one of the first male feminist ever. Douglass was among the few men who attended the famous 1848 women's-rights convention in Seneca Falls. In his 1888 speech, he both reaffirmed his stance and pointed to the primacy of women in their own movement: "I believe no man, however gifted with thought and speech, can voice the wrongs and present the demands of women with the skill and effect, with the power and authority of woman herself. The man struck is the man to cry out. Woman ... is her own best representative."

The club talks about the history of feminism/feminist in their 2nd meeting. Fun Facts: The first ever considered feminist is Margaret Fuller, every book she wrote has been about womens rights. The first ever male feminist is well known social reformer, Frederick Douglass. He was the first African American and male to b at th first feminist movement, The Seneca Falls Convention in July 1848, in New York. Though he was told by a woman that said "Women should be able to vote before a black male." Frederick made sure to stick through with how he felt about womens right and continue to fight for their right to vote.





During their 4th meeting, The Future is Female Club laughs it up. Vice President, Narelyn Trujillo talks about womens rights, and male feminist. Aia al Nasrah talks about what stereotypes she has faced being a muslim female.



The Future is Female club ends their fifth meeting off with a nice note and memes/gifs.

During their 4th meeting, the club goes over their new officers for the club. Each person eager to fulfill their role.

Cardi's divorce

Recently Celebrity Cardi B has filed for divorce with famous and well known rapper Offset. She did not make the reasons clear as to why she has decided to end their marriage. However, she has said that they have just fallen out of love with no clear reason as to why. One can only speculate as to why. In the past Offset has cheated numerous of times and Cardi has taken a lot of it , she must've gotten tired of all the cheating and lies. Which no one can blame her for.
What is your opinion on the situation?
Would you have left and filed for divorce? Why or why not

I would've done the same no one deserved to be put through all of that. Their situation is a little different because they do have a daughter together and

Narelyn Trujillo Forsythe

During their second meeting The Future is Female Club talks about Cardi B and Offset's divorce and how their connection might or might not be relatable due to their relationship problems.

What does feminism mean to you, why did you join the club?

"Feminism to me means being independent and not being conformed to a certain role or expectation, it means being able to be who I want to be without worrying about what people have to say but also changing the old ways that we have been groomed too. The reason that I joined is that I want to spread the world of feminism show people the history but also the future, females can be so much more than what society thinks we HAVE to be and that's why I wanted to be in this club"
Narelyn Trujillo, 11th

""It's a community where those can voice their opinions, facts, assumptions, and the things that should and need to be done to help women's need for equality within all of society across the globe, a community open to all who need and wish to support this ideal of equality.I joined to not only learn more about the topic but to be apart of it and show support to the community :)."
Jackson Webb, 12th

"It means womens have rights to do anything their mind is set on just like any man can and I joined the club because I thought it would be something interesting I could do for fun ."
Anthony Whitsett, 11th

"To me, feminism is about not letting anyone defining, or restricting my, or any others womans rights, opportunities, or role in society.I wanted to be a part of a group of like-minded individuals who feel the same way about women's rights as I do."
Mariyah Ndiaye, 12th

"Feminism means no excuses. I don't have to explain my speaking boldly, my appearance, or my actions in the context of what is typical and acceptable for my gender."
Carolyn Cullum, Sponsor

Skylar

Congratulations My Beautiful Daughter
"My Skyy"

I am so honored to be your Mom, from day one your big bright eyes told a story. It has been absolutely beautiful to watch your story unfold. Skylar, you are a Beautiful Shining Soul, fearfully and wonderfully made. I believe you are destined for greatness and your steps are ordered. God has a plan and purpose for you life! Always keep God first in all your endeavors. Sweetheart, go conquer this world. Make all your dreams come true. Skyy you are bursting at the seams with greatness & unlimited potential. I am extremely excited about your future. The world could really benefit from a few more people like you.

The Sky(y) is the limit !!!
Remember you can do All Things Through Christ which Strengthens you.
Phil 4:13

Infinite Love,
Mom

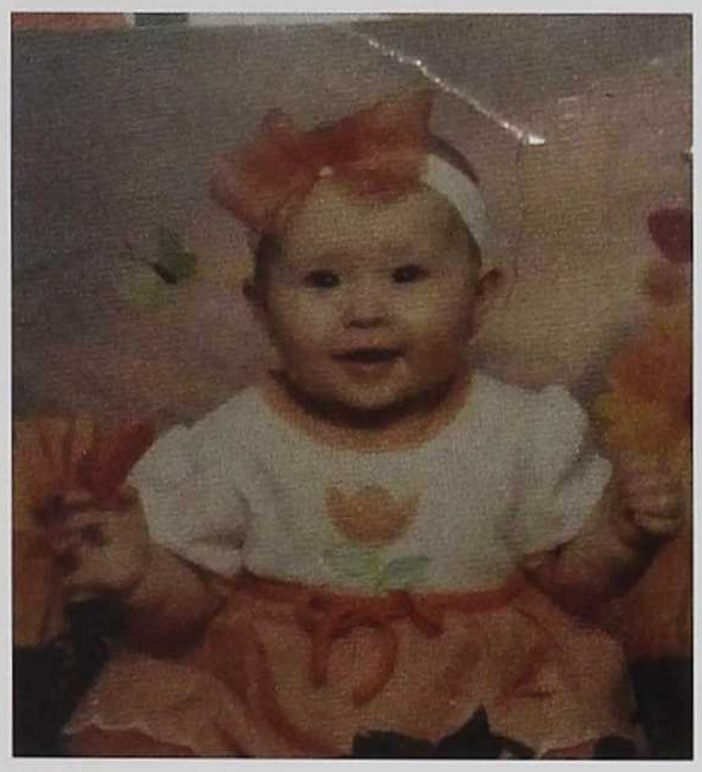
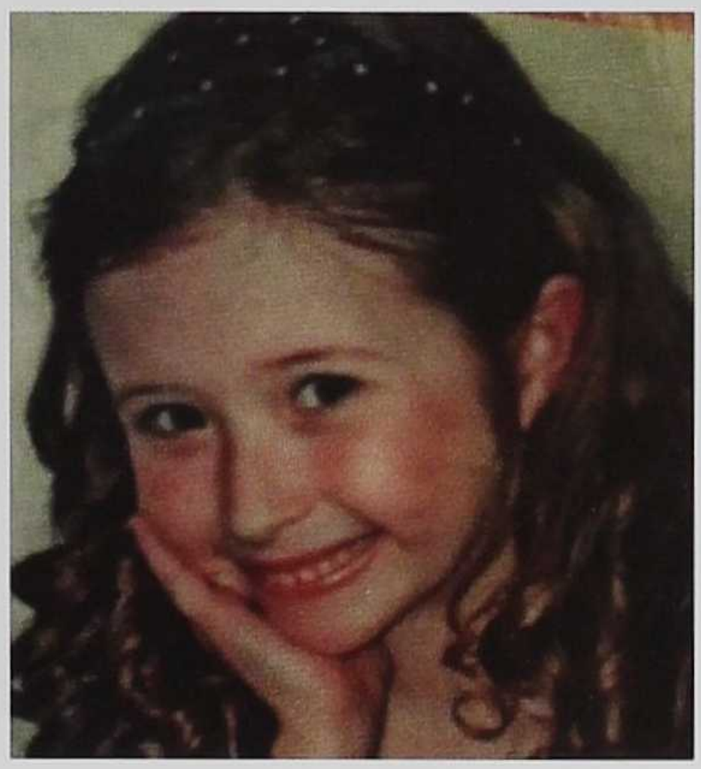
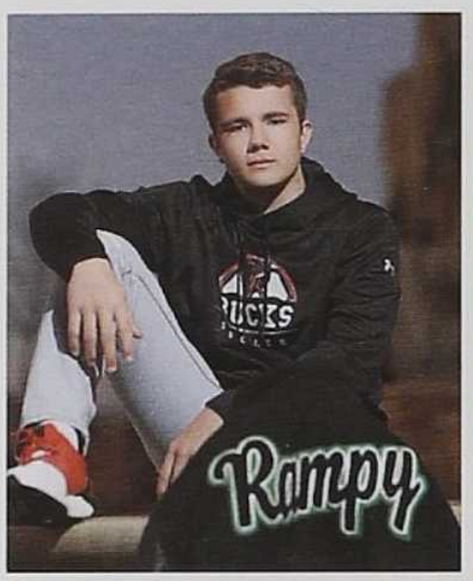
We are so proud of you!
We love you so much!
Love, Mom, Dad & Alex

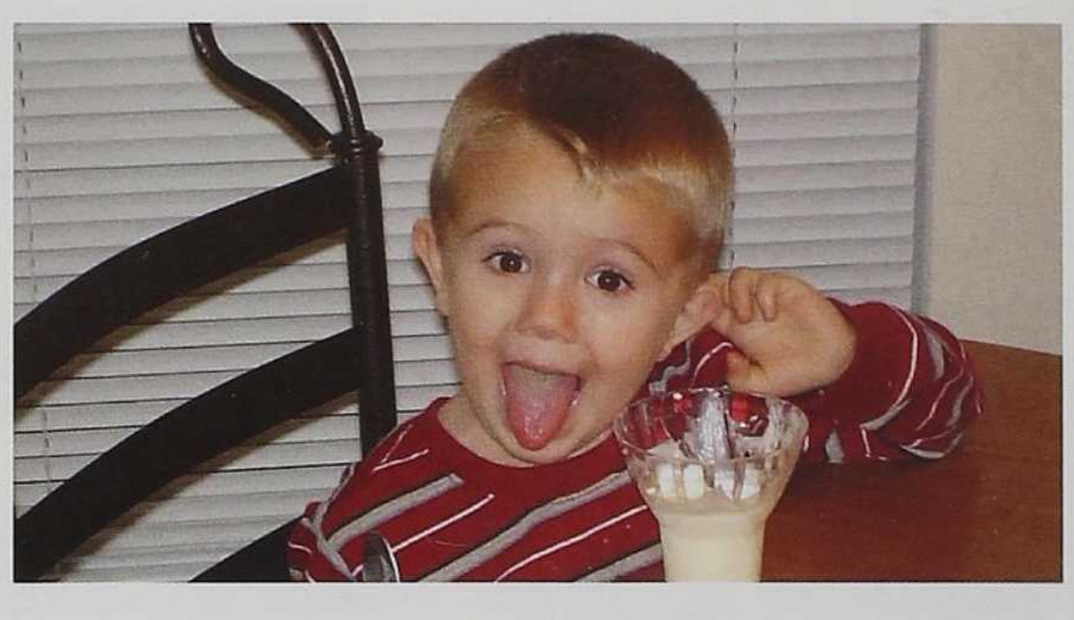
Bri Hull

We are so proud of you Bri! Keep shining your light on the world like you always have. We love you, love Mom and Toby.
"Don't let anyone look down on you because you're young, but set an example for the believers in speech, in conduct, in love, in faith, and in purity." 1 Timothy 4:12









Jesse Rampy

Champ - We are so proud of you! You set so many goals over the years and you have crushed them all. We know you will do great things in the years to come. Never stop chasing your dreams!

Proverbs 3:4-5 Trust in the Lord with all of your heart; do not depend on your own understanding. Seek his will in all you do, and he will show you which path to take.

We love you,
Mom, Dad and Beckham

Dear Skylar,
First of all I would like to tell you how very, very proud I am of you!!!
Secondly, I remember as a kid playing soccer you didn't like recieving medals/ribbons.
Now, 12 years later, look at all your accomplishments!!!
Congrats!!
Love Always, Your Father
